**How to use this Stewardship program educator's guide.**

You can download this PDF educators guide to your computer. You can access information by using your computer mouse and clicking on the links and it will take you directly to the correct web page. This format will allow you to save paper and time retyping web addresses. You can also just print out a page that you need. A supplement to this guide will be posted when new Stewardship success stories or other information becomes available. PDF activity files from Project WET and Project Learning Tree will only be available until October 31st, 2007. Please take the time to attend a workshop and promote programs from our education partners.

**Poster/Calendar**

Join in our celebration of 2007 Stewardship Week by displaying this colorful photo poster and calendar combination. You can remove the calendar for a beautiful poster to display for many years! This combo is a great tool to use with adult or student programs or as a thank you to educators and others in your community.

26" x 17"

Calendar can be cut off after 2007  
for a 22" x 17" poster

PRICE: \$7.50 per 10 Item # POSTER-07

**Energy and Me****EDUCATION BOOKLET FOR  
KINDERGARTEN AND GRADE 1**

*Energy is all around us.*

*Learn what energy is and how it works.*

PRICE: \$7.50 per 25 - 4 page booklet Item # BK-K1-07

**Where is Energy?****EDUCATION BOOKLET FOR  
GRADE 2 AND GRADE 3**

What is the difference between renewable and nonrenewable energy?

PRICE: \$10.00 per 25 - 8 pg booklet Item # BK-23-07

**Fuel for the Future****EDUCATION BOOKLET FOR  
GRADE 4 AND GRADE 5**

What type of fuel will we be using in the future?

**Bookmark**

Encourage reading in your community by providing bookmarks to your local library, schools, field days, religious groups and others. The blank side can be used to add your own information with a label!

PRICE: \$7.50 per 100 Item # BOOKMARK-07

**Activity Sheet/  
Placemat**

Dual purpose use—use as an activity sheet or as a placemat at your next conservation event!

Great for any age  
9" x 13"

PRICE: \$10.00 per 100 Item # SHEET-07

**Program Insert**

Includes information about Stewardship Week and Conservation's Power on the back side of colorful photo cover  
Great for annual meetings, schools, organizations and churches  
5.5" x 8.5"

PRICE: \$7.50 per 100 Item # INSERT-07

**Program Blank**

ready for you to print on!  
This colorful photo program cover is great for use at your local or state annual meeting or with local organizations and churches.

8 ½" by 11"

PRICE: \$7.50 per 100 Item # PROGRAM-07

**Litany**

For use at your local churches  
Includes responsive reading on back side of a colorful photo cover designed around Conservation's Power theme  
5.5" x 8.5"

PRICE: \$7.50 per 100 Item # LITANY-07

**Sample Packet**

(one each item of the above  
minus the Power Point CD)

PRICE: \$10.00 plus \$2.50 shipping Item # SAMPAK-07  
while supplies last

\$10.00 coupon for orders over \$150 placed by 2/15/07)

**PowerPoint CDs**

Are you looking for a new and different way to promote Stewardship Week in your community? The Stewardship Week CD includes  
3 PowerPoint presentations on the theme

- 1) youth
- 2) adult
- 3) church use

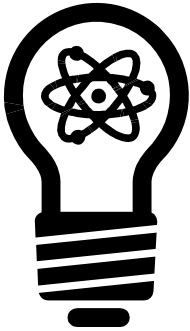

PRICE: \$10.00 Item # CD-07

## Background Information—Conservation's Power

Our 2007 Stewardship Education partners have extensive background information on a variety of topics for the "Conservation's Power" theme.

The NEED—National Energy Education Development Project are developing new materials each year.

Visit [www.need.org](http://www.need.org) to find more.

Free downloadable PDF files on a variety of energy topics are available from their website.

NEED—Energy Info books can be found at: <http://www.need.org/EnergyInfobooks.php>

NEED—Energy Infobook Activities can be found at: <http://www.need.org/EnergyInfobooksActivities.php>

NEED—Curriculum materials can be found at: <http://www.need.org/curriculum.php>

Correlations to state standards for NEED activities can be found at: <http://www.need.org/correlations.php>

NEW activity guides from NEED on:  
Transportation Fuels Enigma  
Energy on Public Lands  
Fossil Fuels to Products

NEED Science Fair project ideas can be found at: <http://www.need.org/energyfair.php>

NEED also provides Youth Awards for energy achievement—additional information can be found at: <http://www.need.org/youthawards.php>

Project Learning Tree (PLT) Energy and Society Program [www.plt.org](http://www.plt.org)

USDA-NRCS has extensive conservation energy information on line by visiting:

<http://www.nrcs.usda.gov/technical/energy/index.html>

At the link above you will find information on:

Save ENERGY Save MONEY- *Conservation Practices Contribute to Energy Efficiency and Fuel Savings-*

Conservation Energy Estimators and more.

A wonderful USDA ENERGY COMMITMENTS AND HIGHLIGHTS Fact Sheet can be downloaded by [clicking here](#)

The new K-12 Energy Education Resource Guide is available from the National Energy Information Center at the US Energy Information Administration. <http://www.eia.doe.gov/>

They also have information on renewable and alternative fuel, forecasts and analysts, and more!

They are also in the process of development of a new Energy Ant Activity Booklet.

Visit [www.eia.doe.gov/kids](http://www.eia.doe.gov/kids) for energy facts, energy history, classroom activities, and links. You will also find energy science fair projects.

Additional information on energy can be found on the [links page 12](#).

## About NACD & Stewardship Week

---

The National Association of Conservation Districts is the nonprofit organization that represents the nation's 3,000 conservation districts, 17,000 men and women who serve on their governing boards. Conservation districts are local units of government established under state law to carry out natural resource management programs at the local level. Districts work with more than 2.5 million cooperating landowners and operators to help them manage and protect land and water resources on nearly 98 percent of the private lands in the United States.

NACD's mission is to serve conservation districts by providing national leadership and a unified voice for natural resource conservation. The association was founded on the philosophy that conservation decisions should be made at the local level with technical and funding assistance from federal, state and local governments and the private sector. As the national voice for all conservation districts, NACD supports voluntary, incentive-driven natural resource conservation programs that benefit all citizens.

NACD maintains relationships with organizations and government agencies; publishes information about districts; works with leaders in agriculture, conservation, environment, education, industry, religion and other fields; and provides services to its districts. NACD is financed primarily through the voluntary contributions of its member districts and state associations.

The association's philosophy is that conservation decisions should be made by local people with technical and funding assistance from federal, state and local governments and the private sector. The association's programs and activities aim to advance the resource conservation cause of local districts and the millions of cooperating landowners and land managers they serve.

Visit [www.nacdnet.org](http://www.nacdnet.org) for additional information.

### **STEWARDSHIP WEEK INFORMATION**

Stewardship Week is sponsored by the National Association of Conservation Districts (NACD). The 3,000 local conservation districts that make up NACD manage soil and water conservation programs in virtually every community in the United States. Since 1955, NACD has selected an annual Stewardship Week theme and developed materials for schools, communities and churches of all denominations.

Stewardship Week, celebrated annually between the last Sunday in April and the first Sunday in May, reminds us of our individual responsibility to care for the natural resources upon which we all depend.

# Working with Schools & Community

**Stewardship week materials for 2007 offer many opportunities to work with your local schools and community.**

## Ideas for schools:

- 1) Purchase NACD Stewardship student booklets
- 2) Utilize activities provided for school programs, field days or in-service workshops with teachers, scouts, 4-H, after school programs, boys and girls clubs.
- 3) Activities are correlated to national standards and some are correlated to state standards.
  - A. See [page 14](#) for list of activities for Stewardship Week theme “Conservation’s Power”
  - B. See correlation information below for links to standards.
- 4) Become involved in reading programs at the schools and local libraries.
  - A. See page [8](#) and [9](#) for a list of children’s books.
- 5) Science Fair ideas are available from several sites on the links [page 12](#).

## Ideas for community:

- 1) Exhibit at your local library, county fair, community trade fairs and other opportunities
- 2) See the Stewardship Success stories on [page 11](#).
- 3) If you are working with local churches—offer the activities and student booklets for Bible School.
- 4) Start a speakers bureau for local service clubs, organizations and churches.

### **Energy: My First Look At: Science (My First Look at: Science)**

by Melissa Gish (Author)

**Reading level:** Ages 4-8

**Publisher:** Creative Education (July 30, 2005)

**ISBN:** 1583413723

### **Water Power (Richards, Julie. Future Energy.)**

by Julie Richards

**Reading level:** Ages 4-8

**Publisher:** Smart Apple Media (August 2003)

**ISBN:** 1583403353

### **A Bright Idea: Conserving Energy (You Can Save the Planet)**

by Tristan Boyer Binns (Author)

**Reading level:** Ages 4-8

**Publisher:** Heinemann Library (May 2005)

**ISBN:** 1403468508

### **Geothermal Energy and Bio-Mass Power (Richards, Julie. Future Energy.)**

by Julie Richards (Author)

**Reading level:** Ages 4-8

**Publisher:** Smart Apple Media (August 2003)

**ISBN:** 1583403361

### **Energy: Get Moving! (Science in Your Life)**

by Wendy Sadler

**Reading level:** Ages 4-8

**Publisher:** Raintree (October 2005)

**ISBN:** 1410915611

### **Energy Makes Things Happen (Let's-Read-and-Find-Out Science 2)**

by Kimberly Brubaker Bradley (Author), Paul Meisel (Illustrator)

**Reading level:** Ages 4-8

**Publisher:** Harper Trophy (December 24, 2002)

**ISBN:** 0064452131

### **Alternative Energy (True Books)**

by Christine Petersen (Author)

**Reading level:** Ages 4-8

**Publisher:** Children's Press (CT) (September 2004)

**ISBN:** 0516219448

### **Pass the Energy, Please! (Sharing Nature With Children Book)**

by Barbara Shaw McKinney (Author), Chad Wallace

**Reading level:** Ages 4-8

**Publisher:** Dawn Publications (CA) (March 2000)

**ISBN:** 158469002X

# Literature Connections—Ages 9-12

---

**Eyewitness: Energy**

by Jack Challoner (Author)

**Reading level:** Ages 9-12

**Publisher:** DK CHILDREN; 1ST edition (March 1, 2000)

**ISBN:** 0789455765

**Generating Wind Power (Energy Revolution)**

by Niki Walker

**Reading level:** Ages 9-12

**Publisher:** Crabtree Publishing Company (November 6, 2006)

**ISBN:** 0778729273

**Energy Projects for Young Scientists (Revised Edition)**

by Richard Craig Adams, Robert Gardner, Richard C. Adams, Robert Gardner

**Publisher:** Franklin Watts; Revised edition (March 2003)

**ISBN:** 0531163806

**Janice VanCleave's Energy for Every Kid:**

Easy Activities That Make Learning Science Fun (Science for Every Kid Series)

**Reading level:** Ages 9-12

**Publisher:** Jossey-Bass (October 10, 2005)

**ISBN:** 047133099X

**Harnessing Power from the Sun (Energy Revolution)**

by Niki Walker (Author)

**Reading level:** Ages 9-12

**Publisher:** Crabtree Publishing Company (November 6, 2006)

**ISBN:** 0778729265

**Waves: Energy On The Move (Exploring Science)**

by Darlene R. Stille

**Reading level:** Ages 9-12

**Publisher:** Compass Point Books (August 2005)

**ISBN:** 075651259X

**The History Of Energy (Major Inventions Through History)**

by Elaine Landau

**Reading level:** Ages 9-12

**Publisher:** Twenty-First Century Books (CT) (September 2005)

**Language:** English

**ISBN:** 0822538067

**Renewable Energy (Energy Essentials/ Freestyle Express)**

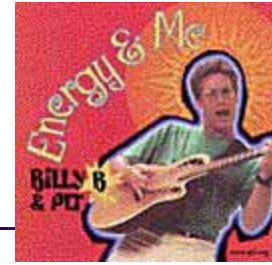

by Nigel Saunders, Steven Chapman

**Library Binding:** 48 pages

**Publisher:** Raintree (September 30, 2005)

**ISBN:** 1410916960

Lyrics from Energy and Me CD –  
Billy B

## Energy Music

### Resources

*Lyrics – Bill Brennan*

*Music – Bill Brennan and James Brennan*

In my hand I hold a pencil  
I write these words with this utensil  
It's made of wood grown by a tree  
and photosynthetic activity  
a tree's cut down, the shape's made right  
it's drilled and filled with the graphite  
the tree's cut down then a saplings sown  
a hundred years go round a big tree has grown  
this resource has been renewed

this of course is what people can do

### CHORUS

Where ever you go what ever you choose  
you have to know what you can use  
guess success for what your course is  
if you know your resources

perpetual, renewable, nonrenewable  
what's it cost, can you get it, is it do-able ?

in the crust the graphite's stored  
with other minerals and metal ore  
It took the earth millions of years  
to put those minerals and metals here  
once they're taken from the ground  
more can't be made, only found  
the ground's dug up the ore's extracted  
it's processed the product's packaged  
these resources are non-renewable  
replacing them is not do-able

### CHORUS

on my face I feel the wind  
the sun is what makes it begin  
yes the sun does shine and the wind does blow  
and there's geothermal forces below  
perpetual means in perpetuity  
or a constant source of energy  
a windmill spins when the wind blows  
a solar cell collects the suns glow  
these resources almost forever  
to harness them we endeavor

To hear this song click on link below:

<http://www.billybproductions.com/index.php?pageID=10&albumID=11001&songID=10>

### On the Move

*Lyrics – Bill Brennan*

*Music – Bill Brennan – James Brennan*

People use bikes, scooters and cars  
to get to where their destinations are  
trucks haul food from the farm to the table  
or pull the race horse from the track to the stable  
planes carry people, trains haul coal  
the ocean cruiser cruises past the atoll  
all these motions use the energy  
from burning hydrocarbons, or muscularity

people use so many different modes of  
transportation

in air, water, on roads crisscrossing this nation  
energy's burning gears are in the grove  
energy's transferring to the wheels on the move

It's a rubber tire on an asphalt road  
it carries the car and the semi-load  
each tire wraps around the wheel  
which spins on an axle made of steel  
geared to the drive shaft transmission to spin  
driven by the flywheel and the crankshaft within  
Pistons moving up and down as gasoline explodes  
energy from plankton from the seas of long ago

### CHORUS

Is there public transportation in your town?  
Are there buses above or subways below ground?  
Do you use them? Do you know where they go?  
The times that they run? Are they fast or slow?  
Are your highways congested? Are they poorly  
designed?

Do you have a better plan in your mind?  
The future is coming with more people on the  
move,  
what changes should be made to the systems we  
use?

To hear this song click on link below:

<http://www.billybproductions.com/index.php?pageID=10&albumID=11001&songID=11>

## Stewardship Success Stories

The Virginia Association of Soil and Water Conservation Districts and its 47 local conservation districts have set aside October 15-21, 2006 as Natural Resources Conservation Week. This year's theme, "Water Wise" highlights the importance of conserving water resources.

Water is vital to life. Yet, we often take it for granted. This precious resource may become increasingly scarce as we place more and more demands on fresh water supplies.

"We want people in every county to learn how important it is to help conserve water and how easy it can be," says Art Hart, Education Committee Chair for the Virginia Association of Soil and Water Conservation Districts.

There are many other ways to conserve water. Spread the word with friends, neighbors, colleagues, and children about the very important reasons we all need to be "Water Wise." For more free tips about water conservation, call your local soil and water conservation district or stop by their office.

*The 2006 Natural Resource Conservation Week Packets - WATER WISE - were distributed to SWCD Offices via mail yesterday and today. Your packet will arrive in 2 boxes, 1 containing the education kit contents for the "who polluted the river" activity and the other containing the remaining supporting materials for the theme "water wise." The dates are October 15-21, 2006. The Governors Proclamation should be available soon. Be sure to check the website for downloadable information <http://www.vaswcd.org/natresources.htm>*

And

**Oklahoma Farm Bureau to partner with OACD to celebrate Stewardship Week in Oklahoma**

**Oklahoma City** (April 10, 2006)-As part of their continuing commitment to help farmers, ranchers and other landowners protect and conserve our natural resources, the Oklahoma Association of Conservation Districts (OACD), and the Oklahoma Farm Bureau today announced that they will partner in celebrating Stewardship Week in Oklahoma, April 30 through May 7, 2006.

Greetings from South Carolina:

Through the leadership of our SC Association of Conservation Districts, the South Carolina State Legislature adopted a Concurrent Resolution declaring April 30-May 7 as Soil and Water Stewardship Week in South Carolina. The full text of the Resolution is below, or you may access the page at

[http://www.scstatehouse.net/sess116\\_2005-2006/prever/4868\\_20060329.doc](http://www.scstatehouse.net/sess116_2005-2006/prever/4868_20060329.doc)

Districts were encouraged to be sure their local newspapers received a copy of the resolution with appeals to print a story.

Thanks for keeping Soil Stewardship as a foundation for all we do.

Amanda Bauknight

West Piedmont Area Director

SC Association of Conservation Districts

# Poster, Photography, Essay and Speech Contests

## **NACD/Auxiliary POSTER CONTEST**

*in cooperation with the Washington County, MD Soil Conservation District*

2007 Poster Contest Theme is  
**Conservation's Power**

You can find all the forms and rules online at:

<http://nacdnet.org/outreach/awards/poster.htm>

Ideas for the 2007 theme can be found at:

<http://www.stewardship.nacdnet.org/ContestIdeas.htm>

## **LOCAL ESSAY AND SPEECH CONTESTS**

Many Conservation Districts use the yearly Stewardship theme for local essay and speech contests.

If you are not currently conducting a local contest work with your schools and service organizations to sponsor one. Both types of contests fit into education standards at the local and national level.

## **NACD/Auxiliary PHOTOGRAPHY CONTEST**

*in cooperation with the Virginia Association of Soil & Water Conservation Districts*

Entries are due December 1st of each year  
Photo entry contest form and rules can be found online at:

# Stewardship Student Booklets

## *Energy and Me*

**EDUCATION BOOKLET FOR  
KINDERGARTEN AND GRADE 1**

Energy is all around us. Learn what energy is and how it works.

## *Where is Energy?*

**EDUCATION BOOKLET FOR  
GRADE 2 AND GRADE 3**

What is the difference between renewable  
and nonrenewable energy?

## *Fuel for the Future*

**EDUCATION BOOKLET FOR  
GRADE 4 AND GRADE 5**

What type of fuel will we be using in the future?

These student booklets compliment the activities on [page 15](#) from our Education Partners.

Visit the Stewardship Marketplace to order your student booklets and more Stewardship materials.

<http://www.nacdstore.org/>

# Activities

**Please locate the activities on our free [download page](#). The files are too large to add directly into this guide.**

**NACD Education Partners have made some of their activities available for our use for the 2007 Stewardship program.**

We encourage you if you have not already completed training in these programs to locate your state contact and attend a workshop to receive all the activities in these outstanding programs. You will find your local contact information from the websites below.
